Jack Shaw

Travels from: **Georgia**

Fee Range: **\$7,501 - \$10,000**

Jack Shaw is a Pragmatic Visionary, a Digital Strategist, an experienced Technology Executive, a Consulting Futurist and a world renowned Keynote Speaker. He was voted one of the World's Top 5 Technology Futurists by over 12,000 meetings planners, executives and conference attendees.

Jack Shaw has been a Technology Futurist for over 30 years – helping others to understand the strategic implications of emerging technologies. He's a Marketing Strategist, Industry Thought Leader, and Author of three critically acclaimed books on business and technology.

He has advised such leading Technology Providers as Oracle, SAP, IBM, CA Technologies and many more. He has also provided expert guidance and best practices to such Fortune 500 Companies as GE and Coca Cola, among others, as well as to hundreds of small to mid-sized businesses.

A charismatic speaker, he's delivered more than 1000 keynote speeches and executive presentations in more than 20 countries. Jack graduated from Yale with a degree in Business Administration and has an MBA from Kellogg in Finance and Marketing.

He is widely recognized for his expertise in such breakthrough business technologies as:

- Artificial Intelligence
- Blockchain
- Internet of Things
- 3D Printing

As well as such established technologies as:

- Ecommerce/Omnicommerce
- Big Data
- Predictive Analytics
- Cloud Computing
- Mobile Commerce
- Supply Chain Management
